Applicant's election with traverse of Group I, claims 1-15 in the reply filed on 11/30/09 is acknowledged. The traversal is on the ground(s) that the amendments to claims 16-28 to further describe the device as a penis curvature correcting device provides sufficient special technical features to correspond with the elected claims. This is not found persuasive because while the claims now further describe the device as a penis curvature correcting device, this is directed to the intended use of the device. The device still could be used with an arm and/or leg to correct any unwanted curvature.

The requirement is still deemed proper and is therefore made FINAL.

Claims 16-28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11/30/09.

Claims1-15 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Moore and Kim are cited to show the state of related prior art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John P. Lacyk whose telephone number is (571)272-4728. The examiner can normally be reached on 8-4:30.
